

HORMONALLY ROOTED

*Precision Hormone Therapy
A Rooted Approach To Balance And Wellness*

Why We're a Self-Pay Practice: Better Care, Greater Transparency

Thank you for choosing Hormonally Rooted. We are glad that you have chosen to seek health and wellness through our practice. At our clinic, we operate as a self-pay practice. This means that we do not directly bill insurance companies for our services. We believe this model provides the highest quality of care for our patients for several reasons:

More personalized and comprehensive care

By operating independently of insurance, we can spend more time understanding your unique needs and customizing an integrative treatment plan.

Greater Transparency and Control

With a self-pay model, you know the exact cost up-front for all services with no hidden fees. You choose your care, not your insurance provider.

Insurance often does not cover preventive or Hormone Therapy

These services are often considered elective or "non-essential."

Faster Access to treatment and better outcomes through a proactive approach

Service Breakdown:

- Initial Consultation
- Follow-up Visits
- Pellet Insertion

**Labs will be a separate cost, and can be run through your insurance.*
